Day 1
09.00  Dep. Gothenburg  Our cruise with the M/S Juno begins at Lilla Bommen harbour, by the beautiful four-masted ship Barken Viking.

13.15 - 13.30  Lilla Edet  Ströms lock at Lilla Edet was built in 1916 and is the first lock on our journey. The original lock was opened in 1607 and was the first lock in Sweden.

14.45 - 15.45  Trollhättan locks  The impressive lock staircase at Trollhättan consists of four locks and has a total drop of 32 metres. Of the three parallel lock systems here, only the biggest one (from 1916) is still in use.

15.45 - 17.15  Trollhättan  The Trollhättan Canal Museum is located in a storehouse from 1893. Learn more about the fascinating history of the Trollhättan Canal through the interesting exhibition and film shown here. You can also take a walk through the idyllic lock area with the old locks from the 19th century.

18.30 - 18.40  Brinkebergskulle  The Brinkebergskulle lock is just before Vänersborg, which is the last town before we head out into Lake Vänern. The oldest lock from 1752 can be seen beside the modern lock from 1916.

Day 2
03.10 - 05.20  Sjötorp  Here we enter the first of the 58 narrow locks on the Göta Canal. At Sjötorp we have a set of eight locks and also the remains of some old shipyards.

07.40 - 09.20  Godhögen–Hajstorp övre  We pass a lock system consisting of four locks in beautiful surroundings. In 1822 the western section of the Göta Canal was inaugurated at Hajstorp. Here is the Canal Engineer's home, now privately owned and the old smithy.

07.40 - 08.00  Godhögen–Riksberg  For “early birds” walking is possible from Godhögen to Riksberg, app. 1 km.

10.20  Töreboda  The railway line between Stockholm and Gothenburg crosses the canal here. Töreboda also proudly presents Sweden's smallest ferry, “Lina”, which travels back and forth across the Göta Canal.

12.20  The Berg Canal  The Berg Canal was excavated in 1931-33 to straighten a sharp bend in the canal and was partly blasted into the living rock.

12.50  The Obelisk  At Lanthöjden an obelisk marks the highest point (91.5 metres above sea level) of the Göta Canal.

13.20 - 13.30  Tåtorp  One of the canal's two hand-operated locks is found at Tåtorp.

13.30 - 15.35  Lake Viken  The beautiful Lake Viken (91.8 metres above sea level) serves as a water reservoir for the western section of the Göta Canal.

14.35 - 15.35  The Spetsnäs Canal/ Billströmmen  We steer through two narrow, wood-lined passages and small lakes full of water lilies.

15.35 - 15.50  Forsvik  Forsvik is one of Sweden’s most interesting industrial communities. For six hundred years, iron has been worked, boards have been sawn and flour has been milled here. The lock, built in 1813, is the oldest one in the canal. The impressive iron bridge dates from the same year. In the lock we are sometimes greeted with songs and flowers by the Kindbom family, a religious group. From here on we will be going downwards!

16.35 - 18.45  Karlsborg Fortress  We visit Karlsborg Fortress, initiated by Baltzar von Platen and built 1819-1909. The fortress was intended to be used as the reserve capital of Sweden and house the royal family, the government, the gold reserves and the crown jewels in the event of war. Here you can enjoy an interesting guided tour of the fortress and the beautiful Garrison Church.
18.45 - 21.00 Lake Vättern
With a length of 135 km and a width of 31 km, Lake Vättern is Sweden’s second largest lake, 89 metres above sea level. The lake is unusually deep and its water is very clear.

21.00 Arr. Motala
It was Baltzar von Platen who drew up the plans for Motala, and today it is called “the Capital of the Göta Canal”. In 1822 an engineering works, Motala Verkstad, was established here to serve the canal and is today considered to be the cradle of Swedish industry. Here you also find the head office of the Göta Canal Company, responsible for operation and maintenance. You can walk to see Baltzar von Platen’s grave, about 1 km along the left side of the canal.

Overnight stop.

Day 3

04.00 Dep. Motala
The lock staircase at Borenshult is the second longest in the canal, with five locks connected and a total rise of 15.3 metres. Here you might hear the nightingale sing.

05.00 - 05.40 Borenshult
Our boat slowly traverses Lake Boren, 73 metres above sea level.

05.40 - 06.40 Lake Boren
In the idyllic village Borensberg there is a hand-operated lock, after which we see the well-known Göta Hotel from 1908. Just past the hotel there is a small gazebo leaning out over a sharp bend in the canal, known as the “Helmsman’s Horror”.

07.10 Kungs Norrby, aqueduct
The aqueduct at Kungs Norrby was built in 1993 and leads over the national route 36.

10.20 Ljungsbro, aqueduct
Here we pass the second aqueduct on our journey. This one was built in 1970.

10.40 Berg (Heda)
We start our descent in the lock system of Berg (15 locks) towards Lake Roxen. The tour guide takes us on a walk (app. 3 km) to see the church and the remains of the convent. As an alternative you can walk along the canal or take a refreshing swim in Lake Roxen. The convent of Vreta dates from about 1100 and was the first nunnery in Sweden. Its importance was later superseded by the convent founded by Saint Bridget (St. Birgitta) at Vadstena. The old convent church at Vreta is one of Sweden’s most interesting, offering many medieval treasures. Today, it is used as a parish church and is therefore not always open to visitors.

12.00 - 13.00 Berg (Carl Johan)
The Carl Johan lock staircase is the longest in the canal with seven connected locks. The lock staircase lowers the boat 18.8 metres from the Berg guest harbour to Lake Roxen. Here we board the ship again before steering out on the lake.

13.00 - 15.00 Lake Roxen
33 metres above sea level.

15.00 - 15.10 Norsholm lock
The lock in Norsholm regulates the water level of Lake Roxen. Here the canal crosses the main railway line between Stockholm and Malmö.

16.40 - 17.20 Lake Asplången
27 metres above sea level.

18.45 - 20.00 Carlsborg–Mariehov–Duvkullen
At the lock Carlsborg Övre we have the first of the eight locks taking us down to Söderköping.

20.30 - 21.30 Söderköping
The idyllic town Söderköping was founded in the early 1200s and was very important during the Hanseatic period. The town also has a long and interesting history as a spa. Söderköping is yours to explore on your own.

22.50 - 23.00 Mem
Passing through the last narrow lock before Slätbaken, an inlet of the Baltic, we leave the canal. On 26th Sept. 1832, the Göta Canal was inaugurated at Mem amid great pomp and circumstance in the presence of King Karl XIV Johan and his family.

23.00 - 08.40 The Baltic Sea
We cross open water for a short bit and then weave through the archipelago in the early morning light.

Day 4

08.40 - 08.50 Södertälje
The present lock in Södertälje was inaugurated in 1924 by His Majesty King Gustav V. The lock is 135 metres long, which makes it Scandinavia’s largest lock.

08.50 - 15.15 Lake Mälaren
0.3 metres above sea level. In the Viking Age, Sweden’s third largest lake was not a lake, it was a part of the Baltic Sea. There are two UNESCO World Heritage Sites by Lake Mälaren – Drottningholm Palace and Birka, the Viking City.

10.15 - 12.15 Birka
The Viking community of Birka on the island of Björkö is often regarded as Sweden’s first town. The town was then an important harbour for international shipping and trade. It was in use for about 230 years and was abandoned before the year 1000. There will be a guided tour around on the island (app. 3 km, uneven terrain), and we also visit the Viking museum.

14.15 Drottningholm Palace
Influenced by French prototype, the Drottningholm Palace was built by architect Nicodemus Tessin the Elder. It is the most well-preserved royal castle built in the 1600s in Sweden. Since 1981 the Palace is Their Majesties the King and Queen’s residence. We pass the castle if time admits.

15.15 - 15.30 Hammarby lock
The lock, inaugurated in 1930, is the final lock on our journey and delivers us from Lake Mälaren into Saltsjön.

16.00 Arr. Stockholm
Our cruise ends at Skeppsbrokajen 103 in the Old Town of Stockholm.
